of the country are pouring into headquarters of the K. of C., New York, supporting the Knights in their protest against the War Department's move to oust all war relief agencies from army camps. The Knights of Columbus officially notified the War Department that they were ready to conform with whatever order was made to end their work in the camps, but pointed out that service men preferred civilian to military management of recreational activities. They cited also the fact that Congress had declined to grant the War Department funds for carrying on camp relief work.

electric train for Washington.

Affairs worldly and unworldy are so topsyturvy taht it appears to many well-meaning people that to try to live right is hardly worth the effort. That the doings of one lone erson can not be worth while Marshal Foch has recently asked where so many thousands persist suspicious of government heads and a hatred everywhere against the moneyed class that amounts almost to anarchy, even in this country. But time is a sieve through which all these motiey ideas and actions will be sifted finely and presently the world will return to saner views as it is now all for insane acts and ideas. Hold to the best in thought and action, in work and faith, and soon, serene and unscarred, you will weather the storms that threaten to overwhelm and others will rally to your standard and the good of right tiving will be upheld.

### APPEAR NATURAL.

One reason why so many girls and boys are uninteresting is be-cause they try so hard to be like somebody else rather than be con-tent to remain himself or herself in life. In nature you don't see an oak posing as a willow, or a black duck as a yellow leg, or a lilac as a peony, or a dog as a cat. Be natural and you'll be all right.
